PROFESSIONAL SUMMARY

Senior Data Product Manager with 7+ years of experience leading enterprise AI and data products from discovery through delivery. Experienced in product strategy, roadmap ownership, customer discovery, AI-powered capabilities, and cross-functional leadership across Product, Engineering, Analytics, and Data Science. Proven track record translating complex customer workflows into scalable platform capabilities that drive measurable business impact.

WORK HISTORY

Unity Technologies - Senior Data Product Manager

Tel Aviv, Israel • 2025 - Current

- Contributed to the strategic modernization of Unity's core data platform by translating legacy workflows into scalable product requirements, validation frameworks, and migration plans for critical enterprise datasets.
- Analyzed complex legacy data models and downstream dependencies, partnering with Product, Engineering, and Data stakeholders to translate legacy workflows into scalable technical requirements.
- Defined validation methodologies and quality standards to ensure consistency and accuracy across data pipelines, internal consumers, and machine-learning workflows.

Tarci - Data Product Manager

Ramat-Gan • 2022 - 2025

- Owned the roadmap for data discovery and product capabilities, partnering closely with Engineering, Customer Success, Delivery, and Leadership teams to drive product growth and customer value.
- Translated complex enterprise customer workflows into scalable product capabilities while balancing customer-specific requirements with long-term platform strategy.
- Led the definition of signal-based intelligence capabilities, translating diverse business indicators into scalable scoring and classification models used to evaluate company quality, risk, and opportunity across large-scale datasets.
- Partnered closely with Engineering and Data Science teams to define AI/ML product requirements, validation methodologies, success metrics, and model acceptance criteria.
- Expanded platform coverage from approximately 50 million to 180 million business entities and relationships through large-scale data acquisition, entity resolution, validation, and quality initiatives while maintaining GDPR compliance.
- Identified and evaluated new external data sources, balancing business value, scalability, implementation effort, and long-term

product strategy.

Skai - Director of Data Analytics

Tel-Aviv • 2019 - 2022

- Led multiple local and offshore analytics teams delivering enterprise data solutions, partnering directly with strategic customers to translate complex business challenges into scalable data-driven capabilities.
- Managed and mentored three team leaders and multiple analytics teams across geographies, ensuring high-quality delivery, operational excellence, and customer satisfaction.
- Supported multimillion-dollar customer engagements by delivering high-impact analytical solutions that strengthened long-term strategic partnerships and expanded customer investment.

Wizo - High School Teacher and Educator

Nahalal • 2017 - 2019

- Taught Biology and Biotechnology while mentoring students in academic achievement, leadership, and personal development.

Tel-Aviv University - Lecturer (Junior Academic Staff)

Tel-Aviv • 2010 - 2017

- Taught undergraduate and graduate courses in research methods, statistics, and psychobiology.
- Ranked among the university's top 100 junior lecturers for three consecutive years.

FireCell - CEO & Founder

Netanya • 2007 - 2008

- Founded a mobile technology services company providing competitive analysis, QA, and software-related services to commercial clients; company acquired in 2009.
